

LUNCH AND LEARN

TRAINING CENTER OPEN HOUSES ON APPRENTICESHIP AND TRADES CAREERS!

Free catered luncheon and workshop providing the latest information on Registered Apprenticeship and careers across Wisconsin's building trades. You'll come away better prepared to help students navigate the process of preparing for an apprenticeship, which offers a strong career path and economic outcomes that rival or exceed a bachelor's degree.

This luncheon and open house will bring together representatives from Wisconsin's craft trade organizations, as well as Wisconsin Registered Apprenticeship Field Staff. This event is free for all school counselors, administrators, technology education teachers, and other access professionals who assist students with post-secondary preparation.
